Deadly Thunderstorm Coming

Meteorologists have stated that a severe thunderstorm may be heading our way! Marietta, GA has had many thunderstorms this year, but none like the one Dr. Colacicco has stated is about to happen. "I'm pretty sure this is going to be the worst thunderstorm we have seen yet. I know that Cobb County schools are working on precautions to take, but I'm not sure it will be enough," stated Dr. Colacicco in an interview last week. Cobb County schools have not commented on the matter but local middle

schools are starting to take action. Dickerson Middle School has decided to make their entire building metal in order to NOT attract the lightning involved in thunderstorms. Sources say this may not be the best approach to the problem but are taking any suggestions that other local schools have. East Cobb Middle school has until February 27th to come up with a plan to create a building to combat this terrible storm. What will they come up with? The possibilities are ENDLESS but we need it to work!
